WINDOW SYSTEMS

You deserve precision, superior quality and real value from a name you can depend on.

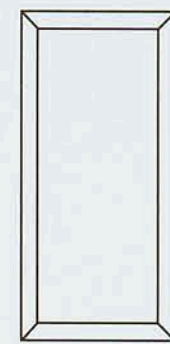

THE GUARDIAN PRIME DOORS SUPERIOR CONSTRUCTION

THE GUARDIAN line of prime doors are available in white, bronze or driftwood, come in a wide variety of styles and are easy to install.

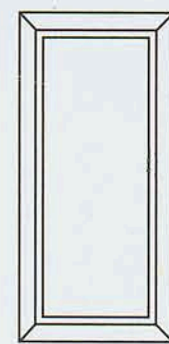

The heavy, extruded and insulated frames are a durable 2" x 4". An extruded foam-filled T-slot seal on Z-Bar creates the best possible inner seal and fin-seal weatherstripping surrounds the entire door.

Hinging is provided by way of four stainless steel tamper-proof hinges with brass bushings attached with stainless steel rivets. An extruded heavy corner key prevents door sag. The outer frame is screwed together for added strength.

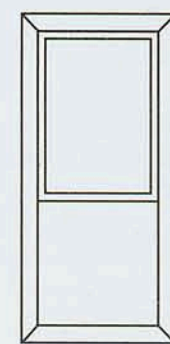

Flush mounted single hung windows and mitred corners present a cleaner appearance. Optimum security is provided through the upgraded lever lockset and deadbolt. Applicable styles also offer embossed kick-panels both inside and out.
